

Application Serial No. 09/930,503  
Amendment dated April 1, 2004  
Reply to Office Action of October 1, 2003

**REMARKS**

Claims 1-137 are pending. The Examiner has noted errors in the sequence listing filed with the application. This amendment corrects errors in the specification and the sequence listing and is believed to bring the specification and sequence listing into compliance with U.S. Patent practice. A substitute computer readable form of the sequence listing is included with this amendment. A substitute paper copy of the Sequence Listing is included herewith. Applicants submit that the content of the paper and computer readable copies of the sequence listing included herewith are the same and no new matter has been added to the specification.

Based on the foregoing, reconsideration and withdrawal of the Examiner's objections to the specification and sequence listing are respectfully requested.

In the event that a telephone conversation would further prosecution and/or expedite allowance, the Examiner is invited to contact the undersigned.

Respectfully submitted,

SHERIDAN ROSS P.C.
